The Company’s fiscal year is the 52- or 53-week period that ends on the last Saturday of September. An additional week is included in the first fiscal quarter every five or six years to realign the Company’s fiscal quarters with calendar quarters. The Company’s fiscal years 2026 and 2025 span 52 weeks each. Unless otherwise stated, references to particular years, quarters, months and periods refer to the Company’s fiscal years ended in September and the associated quarters, months and periods of those fiscal years. As of December 27, 2025, 78 % of the Company's non-current marketable debt securities other than mortgage- and asset-backed securities had maturities between 1 and 5 years, 17 % between 5 and 10 years, and 5 % greater than 10 years. As of December 27, 2025, 12 % of the Company's non-current mortgage- and asset-backed securities had maturities between 1 and 5 years, 18 % between 5 and 10 years, and 70 % greater than 10 years. Derivative Instruments and Hedging The Company may use derivative instruments to partially offset its business exposure to foreign exchange and interest rate risk. However, the Company may choose not to hedge certain exposures for a variety of reasons, including accounting considerations or the prohibitive economic cost of

hedging particular exposures. There can be no assurance the hedges will offset more than a portion of the financial impact resulting from movements in foreign exchange or interest rates.

Foreign Exchange Rate Risk To protect gross margins from fluctuations in foreign exchange rates, the Company may use forwards, options or other instruments, and may designate these instruments as cash flow hedges. The Company generally hedges portions of its forecasted foreign currency exposure associated with revenue and inventory purchases, typically for up to 12 months. To protect the Company's foreign currency-denominated term debt or marketable securities from fluctuations in foreign exchange rates, the Company may use forwards, cross-currency swaps or other instruments. The Company designates these instruments as either cash flow or fair value hedges. As of December 27, 2025, the maximum length of time over which the Company is hedging its exposure to the variability in future cash flows for term debt-related foreign currency transactions is 17 years. The Company may also use derivative instruments that are not designated as accounting hedges to protect gross margins from certain fluctuations in foreign exchange rates, as well as to offset a portion of the foreign currency gains and losses generated by the remeasurement of certain assets and liabilities denominated in non-functional currencies.

Interest Rate Risk To protect the Company's term debt or marketable securities from fluctuations in interest rates, the Company may use interest rate swaps, options or other instruments. The Company designates these instruments as either cash flow or fair value hedges.

Apple Inc. | Q1 2026 Form 10-Q | 8

The Company's third-party cellular network carriers accounted for 35 % and 34 % of total trade receivables as of December 27, 2025 and September 27, 2025, respectively. The Company requires third-party credit support or collateral from certain customers to limit credit risk.

Vendor Non-Trade Receivables The Company has non-trade receivables from certain of its manufacturing vendors resulting from the sale of components to these vendors who manufacture subassemblies or assemble final products for the Company. The Company purchases these components directly from suppliers. The Company does not reflect the sale of these components in products net sales. Rather, the Company recognizes any gain on these sales as a reduction of products cost of sales when the related final products are sold by the Company. As of December 27, 2025, the Company had two vendors that individually represented 10% or more of total vendor non-trade receivables, which accounted for 47 % and 26 %. As of September 27, 2025, the Company had two vendors that individually represented 10% or more of total vendor non-trade receivables, which accounted for 46 % and 23 %.

Commitments and Contingencies

Unconditional Purchase Obligations The Company has entered into certain off-balance sheet commitments that require the future purchase of goods or services (unconditional purchase obligations). The Company's unconditional purchase obligations primarily consist of supplier arrangements, licensed intellectual property and content, and distribution rights. Future payments under unconditional purchase obligations with a remaining term in excess of one year as of December 27, 2025, are as follows (in millions):

Year	2026 (remaining nine months)	2027	2028	2029	2030	Thereafter	Total

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations This Item and other sections of this Quarterly Report on Form 10-Q (Form 10-Q) contain forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that involve risks and uncertainties. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. For example, statements in this Form 10-Q regarding the potential future impact of macroeconomic conditions and tariffs and other measures on the Company's business and results of operations are forward-looking statements. Forward-looking statements can also be identified by words such as future, anticipates, believes, estimates, expects, intends, plans, predicts, will, would, could, can, may, and similar terms. Forward-looking statements are not guarantees of future performance and the Company's actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in Part I, Item 1A of the 2025 Form 10-K and Part II, Item 1A of this Form 10-Q, in each case under the heading Risk Factors. The Company assumes no obligation to revise or update any forward-looking statements for any reason, except as required by law. Unless otherwise stated, all information presented herein is based on the Company's fiscal calendar, and references to particular years, quarters, months or periods refer to the Company's fiscal years ended in September and the associated quarters, months and periods of those fiscal years. The following discussion should be read in conjunction with the 2025 Form 10-K filed with

the U.S. Securities and Exchange Commission (SEC) and the condensed consolidated financial statements and accompanying notes included in Part I, Item 1 of this Form 10-Q. Available Information The Company periodically provides certain information for investors on its corporate website, www.apple.com, and its investor relations website, investor.apple.com. This includes press releases and other information about financial performance, information on corporate governance, and details related to the Company's annual meeting of shareholders. The information contained on the websites referenced in this Form 10-Q is not incorporated by reference into this filing. Further, the Company's references to website URLs are intended to be inactive textual references only.

Business Seasonality and Product Introductions The Company has historically experienced higher net sales in its first quarter compared to other quarters in its fiscal year due in part to seasonal holiday demand. Additionally, new product and service introductions can significantly impact net sales, cost of sales and operating expenses. The timing of product introductions can also impact the Company's net sales to its indirect distribution channels as these channels are filled with new inventory following a product launch, and channel inventory of an older product often declines as the launch of a newer product approaches. Net sales can also be affected when consumers and distributors anticipate a product introduction. During the first quarter of 2026, the Company announced the following updated products: 14-inch MacBook Pro; iPad Pro; Apple Vision Pro; Mac mini; and the new Apple Watch Series 10. Macroeconomic Conditions Macroeconomic conditions, including inflation, interest rates, component pricing and currency fluctuations, have directly and indirectly impacted, and could in the future materially impact, the Company's results of operations and financial condition.

Apple Inc. | Q1 2026 Form 10-Q | 13 Tariffs and Other Measures Beginning in the second quarter of 2025, new tariffs were announced on imports to the U.S., including additional tariffs on imports from China, India, Japan, South Korea, Taiwan, Vietnam and the European Union (EU), among others. In response, several countries have imposed, or threatened to impose, reciprocal tariffs on imports from the U.S. and other retaliatory measures. On January 14, 2026, initial results were published of the previously announced U.S. Department of Commerce investigation under Section 232 of the Trade Expansion Act of 1962, as amended, into imports of semiconductors, semiconductor manufacturing equipment, and their derivative products, including downstream products that contain semiconductors. The announcement of the initial results of the investigation did not impose any additional tariffs affecting the Company's products at this time. Various modifications to U.S. tariffs have been announced and further changes could be made in the future, which may include additional measures under the Section 232 semiconductor sector investigation, additional sector-based tariffs, or other measures. Tariffs and other measures that are applied to the Company's products or their components can have a material adverse impact on the Company's business, results of operations and financial condition, including impacting the Company's supply chain, the availability of rare earths and other raw materials and components, pricing and gross margin. The ultimate impact remains uncertain and will depend on several factors, including whether additional or incremental U.S. tariffs or other measures are announced or imposed, to what extent other countries implement tariffs or other retaliatory measures in response, and the overall magnitude and duration of these measures. Trade and other international disputes can have an adverse impact on the overall macroeconomic environment and result in shifts and reductions in consumer spending and negative consumer sentiment for the Company's products and services, all of which can further adversely affect the Company's business and results of operations.

Segment Operating Performance The following table shows net sales by reportable segment for the three months ended December 27, 2025 and December 28, 2024 (dollars in millions):

PART II OTHER INFORMATION

Item 1. Legal Proceedings Digital Markets Act Investigations On March 25, 2024, the European Commission (Commission) announced that it had opened a formal noncompliance investigation against the Company under Article 5(4) of the EU Digital Markets Act (DMA) (Article 5(4) Investigation). The Article 5(4) Investigation relates to how developers may communicate and promote offers to end users for apps distributed through the App Store, as well as how developers may conclude contracts with those end users. On June 24, 2024, the Commission announced that it had opened an additional formal investigation against the Company regarding whether the Company's new contractual requirements for third-party app developers and app marketplaces may violate the DMA (Article 6(4) Investigation). On April 23, 2025, the Commission fined the Company \$500 million in the Article 5(4) Investigation and issued a cease and desist order requiring the Company to remove technical and commercial restrictions that prevent developers from steering

users to alternative distribution channels outside the App Store. The Company has appealed the Commission's Article 5(4) decision. Also on April 23, 2025, the Commission issued preliminary findings in the Article 6(4) Investigation. If the Commission makes a final determination in the Article 6(4) Investigation that there has been a violation, it can issue a cease and desist order and may impose fines up to 10% of the Company's annual worldwide net sales. The Commission may also seek to impose additional fines if it deems that the Company has violated a cease and desist order. The Company believes that it complies with the DMA and has continued to make changes to its compliance plan in response to feedback and engagement with the Commission.

The DOJ is seeking equitable relief to redress the alleged anticompetitive behavior. Epic Games Epic Games, Inc. filed a lawsuit in the U.S. District Court for the Northern District of California (California District Court) against the Company alleging violations of federal and state antitrust laws and California's unfair competition law based upon the Company's operation of its App Store. The California District Court found that certain provisions of the Company's App Review Guidelines violate California's unfair competition law and issued an injunction (the 2021 Injunction) enjoining the Company from prohibiting developers from including in their apps buttons, external links, or other calls to action that direct customers to purchasing mechanisms other than the Company's in-app purchase system. On April 30, 2025, the California District Court found the Company to be in violation of the 2021 Injunction and enjoined the Company from imposing any commission or any fee on purchases that consumers make outside an app; restricting, conditioning, limiting, or prohibiting how developers guide consumers to purchases outside an app; or otherwise interfering with a consumer's choice to proceed in or out of an app (the 2025 Injunction). The Company appealed the California District Court's April 2025 decision to the U.S. Court of Appeals for the Ninth Circuit (Ninth Circuit Court). On December 11, 2025, the Ninth Circuit Court issued an order upholding the 2025 Injunction in part and modifying certain aspects to allow the Company to require parity in size, form and placement between the Company's in-app purchase and any links for consumers to make purchases outside an app. The Ninth Circuit Court also held that the Company can charge a commission on link-out purchases, and remanded to the California District Court to further amend or modify the 2025 Injunction, consistent with the Ninth Circuit Court's order. The deadline for the Company to file a petition for rehearing is March 2, 2026.
